ABOUT US **KING SWINGS**

It all started 30 years ago in a 1600-square-foot workshop in Lancaster, PA. **King Swings**, a family owned and operated company, began designing, manufacturing, and installing swing sets. Today our production facility has swelled to 34,000 square feet. Made by some of the finest Amish craftsmen in the country, our swing sets will provide long hours of fun for your children and grandchildren.

We make sure our swing sets are safe. Built to support adult weight, the deck surfaces can bear up to 1000 pounds and the rides up to 250 pounds. So parents, you can play along with your kids! All lumber is sanded to be splinter-free, with rounded corners and edges.

Swing sets are unmatched for aiding in children's physical, mental, social and emotional development. Exercising in fresh air stimulates muscle growth, increases coordination, and develops the mind.

Thank you for choosing **King Swing** products.
We're confident you will not be disappointed.

WHAT GOES INTO OUR SWINGSETS

It all starts with a tree. Trees grown in managed forests are a renewable resource that take less energy to produce than other building materials.

Wood is a wonderful building material for a variety of reasons. It can be cut, shaped and sanded easily. Finally, wood is just plain beautiful!

CUSTOMER TESTIMONIAL
